

F4 Wet/Dry Vacuum Filter Cleaner

INSTRUCTIONS FOR USE

1. Read and follow instructions before use
2. For best results start with a new filter
3. Remove the lid
4. Place your filter on the lower cone *
5. Install the lid and press it firmly down to fully seat the lid to the housing
6. Attach your drill (corded or cordless) to the drive pin
7. Start the drill slowly and run for 30 seconds
8. Remove the drill and lid
9. Remove the cleaned filter

* If you are cleaning a Shop-Vac® Brand filter you need to install adaptors to the Upper and Lower Cones
F4-A adaptor kit sold separately

U.S. Patent No. 6966935

WARNING: Exceeding 1000 RPM may cause damage to the filter.
